Re: Athletic Physicals

- In an effort to provide appropriate access to care for all our patients, we have developed the following policy.
 - Athletic physical “specials” will be offered for \$30 from June 1 until July 31 with the patient’s provider of choice (**subject to availability**).
 - Payment will be expected at the time of service.
 - We will not be able to address other problems during the special athletic physical visit.
 - Athletic physicals not scheduled during this time frame will be billed to the patient or insurer at the customary rate.
 - If you insurance pays for an annual physical, your athletic physical can be performed in conjunction with this exam. You may schedule this at any time with any provider and have it billed to your insurance at the customary rate.

In order to be sure that all patients receive the intended service, we have included on the back of this form on which you can indicate your preference. **PLEASE FILL THIS FORM OUT IN ADVANCE AND BRING IT TO YOUR VISIT.** You cannot change the type of physical you choose after the service has been provided.
